

# Make-up for fashion, fun or career

Kristen Stewart

**“My Graduates have been doing very well. On the local scene M.A.C, Ballantynes, Minifies and a wedding company are benefiting from their skills, while, further afield, one is working in Perth, another in Brisbane and one in LA.”**

**T**he Kristen Stewart School of Makeup, on Peterborough Street, offers a variety of courses and classes, from The Diploma of Makeup Artistry, through to a Basics One on One for the individual who wants to learn how to make the most of features and each season's styles.

Amongst the courses there is one that runs for four weeks one night a week. This suits busy people with limited time. Also, a popular and fun way to learn about making the most of your makeup is the Girls Making Up sessions. This is ideal for a hens-night or just a get together. A group of women can spend a fun two and a half hours learning how to make the most of themselves with makeup. For this event bubbles and a platter are supplied making it not only informative, but fun!

Brides will be interested in the wedding option where they can book the boutique and have the perfect look created for themselves and the wedding party for that special day.

Already the Diploma graduates from KSSM are spreading their wings and making their mark in their chosen careers. The Diploma Course turns out makeup artists at a career level.

“My Graduates have been doing very well,” commented Kristen Stewart. “On the local scene M.A.C, Ballantynes, Minifies and a wedding company are benefiting from their skills, while, further afield, one is working in Perth, another in Brisbane where she is senior stylist at Shine in the Myer Centre and one of our graduates is

working in LA.”

The Diploma of Makeup Artistry course at KSSM trains students to a high professional level, thereby creating opportunities with magazines, music videos, fashion shows, films, TVC's, advertising, television, weddings and make-up counter work.

At the school, classes are kept small, allowing Kristen Stewart, an inspirational make-up artist within the international fashion and photographic industry, to personally tutor the students with plenty of one-on-one focus. Guest tutors include make-up artists, hairstylists and photographers who teach both technical and creative skills.

When they begin the course students need only to bring themselves and an enthusiasm to learn, as KSSM provides an excellent professional make-up kit supplied

by M.A.C, with everything needed to get students started. A professional hair-kit is also supplied, which includes a mixture of styling products supplied by Mod's Hair and a range of other styling tools supplied independently.

On completion of the course every student receives an industry recognised Diploma of Make-up Artistry certificate. This intensive course provides future make-up artists with specific training to get ahead in their career in the fashion and photographic industry.

Whether you wish to take advantage of one of the varied range of short courses and learn the art of make-up, becoming more confident with the application, knowledge and keeping up with the latest seasonal styles, or become a student of the Diploma Course you will be delighted with the results achieved.
